DR. J. MILLER'S
SOOTHING AND HEALING
BALSAM.
This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.
It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin.—For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.
AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Diphtheria.
No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

PROVIDENCE.

THE GREATEST INVENTION OF THE AGE
IS THE
COLD WATER
SELF-WASHING
SOAP.
No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no blueing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.
For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

BRIGGS & BRO'S
Illustrated and Descriptive Catalogue
OF FLOWER & VEGETABLE SEEDS,
And SUMMER FLOWERING BULBS
FOR 1871.
Will be ready for mailing by the middle of January, notwithstanding our great loss of type, paper, engravings, &c., by fire, which destroyed the Job Printing office of the Rochester *Democrat and Chronicle*, 28th December, 1870. It will be printed on a most elegant new-tinted paper, and illustrated with nearly
Five Hundred Original Engravings,
And two finely executed Colored Plates—specimens for all of which were grown by ourselves the past season from our own stock of Seeds. In the originality, execution and extent of the engravings it is unlike and eminently superior to any other Catalogue or "Floral Guide" extant.
The Catalogue will consist of 112 Pages, and as soon as published will be sent free to all who ordered Seeds from us by mail the last season. To others a charge of 15 cents per copy will be made, which is not the value of the Colored Plates. We assure our friends that the inducements we offer to purchasers of Seeds, as to quality and extent of Stock, Discounts and Premiums, are unsurpassed. Please send orders for Catalogues without delay.
Our Colored Chromo for 1871
Will be ready to send out in January. The Chromo will represent Forty-two Varieties of showy and popular Flowers, of natural size and color. We design to make it the best plate of Flowers ever issued. Size, 19x24 inches. The retail value would be at least Two Dollars; we shall, however, furnish it to customers at 75 cents per copy, and offer it as a Premium upon orders for Seeds. See Catalogue when out.

The Woman and the Robber.

In the second part of our late civil war I was married, and went to live with my husband in a little village on the Hudson, some fifty or sixty miles from New York. The house we occupied was a large rambling mansion of considerable antiquity for this country, and stood a little apart from the rest of the village, surrounded by broad fields and commanding a glorious view of the river and the Highlands. It had been built before the Revolution, by my husband's great grandfather, and though destitute of many "modern improvements" was still a comfortable and pleasant residence.

My husband was a lawyer, and a large real estate owner in the neighborhood, and at the period of which I write, was greatly perplexed like many other persons in the North, by the perilous state of times, especially about the safe investment of his funds, as the suspension of specie payments, the great rise in gold, and the military disaster in Virginia had made it almost impossible to tell where it would be safe to deposit or to use one's money in any large amount.

In the course of his transactions in real estate, it happened one day that he received what was to us then a large sum, about ten thousand dollars, which he brought home and placed in my charge, telling me at the same time, that he should have to be absent during the evening, attending to some business on the other side of the river, and should not be at home till about midnight.

"You can place the money in the safe, dear," he said as he gave it to me, "and to-morrow I will try to find some way to invest it securely.

So saying, he stepped into the buggy that was standing at the door, and drove away, taking with him our hired man Simon, and leaving me with no one in the house but Dinah, an old colored woman, who fulfilled in our modest household, the functions of cook and maid of all work, as she had long been in the family of my parents, who on my marriage yielded her up to me as a valuable part of my dower.

Dinah was indeed a character. She was tall and very stout, weighing she would not tell how much more than two hundred pounds. She was very black, and as lazy as she was black. I do not think any one could move more deliberately than Dinah did, that is to move at all. And by a wonderful dispensation, she seemed to feel that whatever her other faults might be, she was strong on the point of locomotion. When she had been moving with a ponderous slowness, maddening to a person of ordinary quickness, one of her favorite expressions was, "Well, Miss Lillie, what shall I fly into next?" How she accomplished all she did, the Brownies only know. We used sometimes almost to tremble when there was a special hurry about our domestic arrangements, and yet Dinah always managed to bring affairs to a consummation just when a minute more would have ruined everything, and with undisturbed front, would slowly enunciate, "Well, Miss, what shall I fly into next?"

It was nearly dark when my husband departed, and after giving my orders to Dinah or rather my suggestions, I left her, and made the tour of the house, to see that all was right and properly locked up. This duty attended to, I went to my bed room, intending to pass the time in reading till my husband should return.

It was a large room on the ground floor, with two French windows. The windows were draped with long yellow silk curtains, between which the moonlight faintly entered, dimmed by the shadow of the roof of the piazza, and partly intercepted by the fringe of woodbine which hung from it.—My bed stood with its foot towards the windows, and with its head about half a yard from the wall. It was an old fashioned structure, hung with yellow silk like the window curtains but I slept with the hangings drawn back and fastened to the headboard. The bed was so large that no one ever thought of moving it, except in those seasons of household panic called house cleanings when the combined strength of three or four men was called into requisition to draw it into the middle of the room. So elaborately carved was it that it went by the name of Westminster Abbey in the family. At one end of the room, at no great distance from the bed was a large safe, built in the hugh chimney of the mansion, with a door high enough for a person to enter standing upright.—Here I was accustomed to place every evening our silver plate on shelves which extended around the sides, on which also were placed boxes containing papers and other valuables. Opposite the foot of the bedstead between the two windows, was a mirror running from the floor almost to the ceiling. Like all other furniture in the room, it was old and handsome. How many happy scenes it had reflected in the hundred years it had stood there.

The night was extremely hot, and I therefore left my windows open, though I drew the curtains before I seated myself at my table in the centre of the room, lighted the candles and began to read in order to pass the heavy time before the return of my husband.

After a while I heard the clock strike nine, at which hour Dinah always went to bed. Her chamber was in the attic, the third story in the house. Remembering some household matter about which I wished to speak to her, I started hurriedly up and went into the entry to interrupt her before she came, and our colloquy continued three or four minutes more.

When I returned to my bedroom, feeling somewhat tired, I resolved to go to bed, as at that late hour in the country it was certain that no visitors would call and my husband could let himself in with the latch key, which he always carried. I thought I would keep awake, by reading, and accordingly placed a light stand and candles at the head of my bed. I then closed and fastened the windows, undressed and got into bed. The key of the safe I placed, as usual, under my pillow.

After reading perhaps an hour, I grew weary of the book, and quietly lay it down, remaining for some minutes meditating, with my eyes fixed on the mirror opposite the foot of my bed, in which I could see myself reflected, together with yellow silk curtains behind my head. I was thinking, not unnaturally, how happy I was with such a loving husband and such a large sum of money secure in the safe, when suddenly I saw in the mirror a sight which made my heart stand still. A hand [illegible] them slowly apart, and grasp [illegible] the headboard. It was a man's hand, large and coarse and dark as if it belonged to a mulatto or to one greatly tanned by ex-

posure to the weather.

My first impulse was to start from the bed and scream for help. I repressed it by a strong effort of will, and lay perfectly motionless, except that I partially closed my eyes, keeping them only sufficiently open to watch the mirror. As quick as lightning my mind took in the situation.—In the few minutes of my absence from the room, while talking to Dinah in the entry, a thief, a robber, possibly a murderer, had stolen in by the piazza window, and had hidden himself either under the bed or behind its draped heap. He was doubtless armed, and if I cried out and attempted to escape from the room he could easily reach the door before I could, and for his own security would probably put me to death.—Dinah was too distant and too feeble to afford me any assistance, and besides was by this time fast asleep in the third story. The man doubtless knew that my husband had that day received a large sum of money and had gone across the river, leaving me alone or nearly alone in the house. He had entered caring only for the money, and anxious above all things to escaped undetected and unrecognized. If I let him know that I was aware of his presence, I should expose myself to outrage worse than murder. My obvious policy was to keep quiet and feign sleep. I thought also of my money, and was not altogether willing to resign that without an effort to save it, and to have at least some clue to the identity of the thief. I confess, however, that this last consideration was not a very strong one, and I am afraid that, if I could have seen my way clear to an escape from the room and the house, I should have fled incontinently, without stopping to see more than that terrible hand.

A moment, which seemed an hour, passed through my mind. I lay perfectly still with my half closed eye watching the mirror.

Slowly and noiselessly the frightful hand pulled up its owner, until I could see the head and face reflected in the glass, and glaring at me with fierce, yet wary eyes.—The man was a mulatto, very dark with evil passions written on every lineament. I could scarcely refrain from shuddering at the sight of this hateful visage, and speedily closed my eyes to shut it out.

I was not quite ready for the ordeal through which I knew I must soon pass. I wanted to move my light stand out of the way, and so arrange the bed clothes that I could spring from the bed without impediment. I therefore gave a sigh moved as if about to awake, slightly opening my eyes at the same time. The head and hand instantly disappeared. I then composedly made the desired change in the position of my clothes, and put my watch with the key of the safe under my pillow, so near the edge that they could be easily taken out, as I knew they would be, extinguished one of my candles, said my prayers, and closing my eyes, resigned myself to my fate, with no very sanguine or definite hope of escape from my perilous position.

I made my breath regular, and a little louder than when I was awake, and lay with my cheek on my hand, counterfeiting sleep. At last the stillness became more terrible than even my first agony of fear.—Several times I fancied that I heard a soft step approach from the place of concealment. As often I was deceived. Then again that dreadful stillness, in which I counted the tick of my watch through my pillow. It was a positive relief when he came from behind the curtain, stopped at the table and stood looking at me, as I was well aware, though my eyes were closed.—I forced myself to breath regular and audibly. He came closer; he bent over me. He passed the lighted candle before my face two or three times. I felt the heat and saw the light through my closed lids, which must have quivered, though he did not seem to observe their motion. Heaven gave me strength not to move nor cry out. Satisfied, apparently, he put back the candlestick on the stand, his hand crept under the pillow, and one by one removed the keys of the safe. He stood so long looking at me; that I felt impelled to open my eyes suddenly upon him.

As he walked slowly towards the safe.—I did partly open them, and cautiously watched him through my eyelashes. I heard him fumbling with the lock, and once he looked over towards the bed. My eyes were wide open, but I closed them in time not to be detected. Watching him stealthily, I saw him open the door of the safe, which he entered without drawing the key from the lock.

Here was the opportunity for which I had waited and watched. I sprang lightly from the bed, with one bound reached the safe, dashed the door to, turned the key, and with one loud shriek fell prostrate to the floor of the dark room. How long I lay upon the floor I do not know, probably for a few minutes only; but I was unconscious; it seemed when I came to myself, as if the interim had been a long one. I was aroused by his blows on the iron door, and found myself weak after the long, nervous tension but still calm. I remember the satisfaction with which I thought as I lay there before rising, that he could not escape, mingled with the vague and foolish idea that he might in his rage burn the valuable contents of the safe. He pounded desperately on the door and swore fearfully at finding himself entrapped. But as I took no notice of the outcries, he soon grew quiet.

Presently I rose, and lighting a candle, dressed myself with all possible haste and with trembling fingers, turned often to look at the safe from under the closed door of which I more than half expected to see the blood trickling—why I cannot tell except that my mind was full of images of horror.

I was soon in readiness. I had no means of ascertaining the time, as he had my watch in his pocket and there was no clock in the room. Taking the candle I hastened to arouse Dinah, who, as I shook her slowly opened her eyes, and with scarcely any more than the usual slowness pronounced her formula, "Well, Miss Lillie, what, shall I do—Lord-a-massa, what's de matter wid the chile?"

"You ain't seen a ghost hab you, honey?"

"No, Dinah; I've seen something worse than a ghost. I have caught a robber, and he's in the safe. What time is it?" and looking at the clock which ticked slowly and deliberately as how could Dinah's clock help doing, I saw to my great relief that it was nearly midnight.

We had scarcely got down stairs when we heard the sound of wheels. A moment more and my husband was in my arms, listening with amazement to a narrative of my singular adventure. I would not suffer him to open the safe until Silas summoned assistance from the neighboring houses, fearing that my desperate prisoner might still escape. When the safe was opened, there sat my burglar on the trunk, half stupefied for the want of air, a knife in one hand, the package of money in the other, and burnt out candle at his feet. He was recognized as an old offender, who had not been long out of State prison, to which in due course of law, he was soon sent for a term of years, which I devoutly hope may last as long as he lives; for I confess I should not feel easy to hear that he was at large. The look of rage he gave me on coming out of the safe will not soon be obliterated from my memory.

My husband I need hardly say, was greatly pleased with my investment, and complimented me highly on the courage and coolness, which had doubtless saved my life as well as the money. The love and pride with which he regarded me, and with which he does to this day, rehearses my exploit, were of themselves a sufficient compensation for the horror and agony of that long summer night. — *Vt. Chronicle.*

NEWPORT DAILY NEWS.

SATURDAY, March 4, 1871.

After the Storm.

The German army has had its triumphal march through the streets of Paris; The iron heel of the conqueror has ground with full weight upon the conquered, and now we presume the haughty Teuton is satisfied. But how is it with broken, mangled, unhappy France? Eight months ago she believed herself the champion of Europe, today she must take rank below that of the second class nations of the Continent. In this short time she has seen her veteran armies conquered and made prisoners, herself despoiled of three thousand square miles of territory, her strongest fortress manned with her enemy's guns, a staggering fine of one thousand million dollars imposed upon her people, and finally she has seen her cherished city polluted by the triumphal march of the invader. Wednesday witnessed a military pageant more humiliating to the Frenchman than even the disastrous campaign which was followed by the banishment of the first Napoleon to St. Helena. This humiliation will long be remembered by the French people. It will be handed down as a cherished legacy from father to son, and the day will come, unless human nature is greatly changed, when the now haughty conqueror will have much for which he must answer. Still the lesson which adversity has taught them, is one for this restless people to heed seriously. It was the excited elements of Paris that were willing to risk peace and prosperity, for the realization of aims without form, and hopes without a reasonable limit. They may see their own punishment, for hurling the nation against armed and waiting Germany in the rising whirlwind of their frenzy. As Paris precipitated the untoward event, so it has been made to drink the cup of humiliation to the dregs. If France now begins to repair damages by rightly laying the foundation for a future government, this lesson will not have been learned in vain. The latest advices have awakened hopes that the counsels of statesmen will prevail, and law and order be brought out of chaos.

The Public Debt.

The public debt statement shows that during the month of February the national liabilities have decreased $7,317,960 08, being $3,276,933 33 in excess of the reduction for January. The total decrease for the year ending Feb. 28, 1871, has been $117,619,630 25, showing an average monthly reduction of $9,801,635 85. We have become so accustomed to these successive reductions that we seldom pause to consider how rapidly the absolute burden of our national debt has sunk during the present Administration. At the beginning of his term, President Grant found a debt which amounted to $73 per head of the population. After two years of honest collection of revenue, co-operating with and assisting the natural expansiveness of our population and resources, its volume has been reduced to $61 per head. The third year of the present administration opens with a total of public debt, including principal and interest, and deducting the cash in the Treasury, amounting to $2,320,708,846 92. This represents a sum three hundred millions less than the national debt of France before the war, and fully sixteen hundred millions less than Great Britain at the present moment. With a population increasing at four times the rapidity of the latter country, and with hardly a tithe of her military burdens, we ought to afford to keep still further behind her annual taxation than our present interval of about fifty millions.

The Coal Question.

Bituminous coal is coming into more general use by consumers here as well as elsewhere. We are using it under steam boilers with very satisfactory results, and we doubt if we shall go back to anthracite, even if the Pennsylvania miners back down, apologise, and go to work. We see it stated that one of the large coal firms of New York has contracted with one of the companies at Cape Breton to deliver 150,000 tons of coal during the coming season.—*Prov. Journal.*

Now if our neighbor, the *Journal*, will support the movement for free coal, it will do a great service, not only to the manufacturers of Rhode Island, but also to all the people. Let it be remembered that the railroad and coal monopolists could never bring the country into its present embarrassment except by help of an Act of Congress. It is of no use to belabor the extortionists until we cease voting them aid and comfort. This is a matter in which we all share a responsibility. The people vote the power into the hands of the ring and then complain because it is used. Take off the tariff on coal and New England can get her supplies at a much less price than has ruled for the past ten years.

Mr. A. T. Stewart and the People of France.

There never was a better illustration of the benevolence and promptitude of New York merchants, than is given in the action of Mr. A. T. Stewart towards the people of France. They called for succor, and he was the first to respond. He purchased five thousand barrels of flour, stowed them on the bark Hunter, and cleared them at the Custom House, all *within a week*, from the time when the first appeal in this country was made. Others have followed in his wake; but to Mr. Stewart should be given the credit of being the first in the field in doing an act which is an honor, not only to him, but to the American people. The expense to this merchant prince will be fifty thousand dollars, and the goods are to be distributed under the supervision of Mr. Stewart's Paris agent in those districts most in need.

It is reported in Washington that Mr. George Bemis and Mr. E. H. Derby are to be appointed to some position to aid the High Commission. Mr. Bemis is well known as an authority upon international law.

An ambitious citizen of Rome, Ga., endeavored to eat three quarts of oysters recently. A local paper says "it was a way he had of signing an engagement to slumber in the valley."

Henry Bergh, the philanthropist, whose efforts for the mitigation of cruelties practiced by the lords of creation on their subjects, the lower animals, has won for him the esteem of every humane person, appears to be in danger of losing the large benefaction of $140,000 chronicled a few days ago as having been left by a charitable Frenchman to the American society for the prevention of cruelty to animals. Before the will of M. Louis Bonard can be admitted to probate and bequest secured for the society, the 'next of kin,' by law, must be advertised for. Already one young Frenchman has appeared as a claimant for the property, and the French consul in New York is searching for any others who may claim kinship with the philanthropic testator. So it appears that if Mr Bergh's society ever receives the legacy it may be shorn of its fair proportions by the clipping of the legal scissors, and abraded of some of its substance by the attrition of the courts.

Sunny Rooms.

Every woman is wise enough and careful enough to secure for her house plants every bit of available sunshine during the cold winter months. Great care is taken to get a southern exposure for them. Indeed, if one can secure no other than a north window for her plants, she has too much love for these unconscious, inanimate things, to keep them at all. She would sooner leave them in the cold to die outright, than linger out a martyr existence in the shade. Folks need sunshine quite as much as plants do. Men and women who have a fair degree of strength and the use of their legs, can get out into the world and get a glimpse of sunshine now and then, and if they choose to do so, let them live in rooms with only a northern exposure; but if it is possible, let us secure rooms into which every ray of sunshine that falls in winter may enter, for the little babies who are shut up in the house, invalids who cannot leave their rooms, and aged people who are too infirm to get out of doors. Let us reflect for a moment that these classes of persons, if kept in rooms with only north windows, will suffer just as much from the absence of sunshine as green, growing plants would do in the same rooms, and their suffering is of account in proportion as a human being is better than a geranium or fuchsia. Everybody knows how a bright sunny day in winter, gladdens every one who is situated so as to enjoy it. Let us make some sacrifices, if need be, in order to give the feeble ones their measure of sunshine.

The schooner *Gem* from Providence for Mobile, made the run from this city to Mobile in the remarkably quick time of nine days. This is probably as quick if not the quickest passage ever made.

Real Estate.—Hazard, Ford & Co., have sold to parties in New York, 560 acres of land on the upper Narragansett shore for improvement; also 40 acres of the Vaucluse farm on the east shore of this island. The sales of land by this firm during the past 16 months, amounted to 930 acres. This fact shows considerable activity in the market, and also that this firm have large facilities for the transaction of business in their line.

Lecture.—The next Lecture on Rome, at the Unitarian Church, will be given tomorrow evening at 7 o'clock.

Religious.

Rev. Gilbert Haven of Boston, is expected to preach the annual missionary sermon at the Marlboro' street Methodist church tomorrow at 3 p. m. There will also be a missionary meeting at the same place.

The Hon. Lee Claflin, father of Governor Claflin of Massachusetts was an ardent Methodist and a liberal giver to the charities of the church. The Boston *Traveller* estimates his donations at one million of dollars and *Zion's Herald* says that, with the exception of Daniel Drew, his contributions exceed those of any member of that church. His son, Governor Claflin is following the noble example.

What so gently and quietly, but at the same time so effectually glorifies woman as the gospel of Jesus Christ. It asserts all her rights to the fullest development of her entire character without injury to the finest and most subtile elements of her womanly nature.

It is pleasant to remember that by doing our best in our station, however humble we may be, we can each serve Jesus just as acceptably as those who occupy the most responsible positions.

How great would the blank in society be without reading! Who can imagine?

Mr. Spurgeon has written a circular in behalf of the "Workingman's Lord's day Rest Association," in favor of petitions to Parliament to relieve the 20,000 letter carriers from labor on Sundays. These carriers walk sixteen to twenty miles every day, and need one day's rest.

A very remarkable revival of religion is in progress in Bristol, N. H., carried on by a united movement of the churches. By a joint invitation, Mr. H. F. Durant, the lay evangelist of Boston, was led to give seventeen days to the work, with delightful success.—The Methodist pastor writes to the *Zion's Herald* that "business men are laying aside their work to attend to the business of salvation, and almost every store, mill, factory, and shop, hotel too, has become a place of prayer. The mighty tidal wave of Gospel light is sweeping everything before it. The very air is vocal with the praise of nearly four hundred new born souls. A correspondent of the Boston *Daily News* says: 'Baptists, Methodists, Congregationalists, all came just as they will be in Heaven, around the same table of the Lord. The word of life came from the cheerful, loving, strong God-sent evangelist with unwonted power, and new names were no doubt recorded that day in the Lamb's Book of Life.' Over four hundred have bowed at the altar for mercy.

Literary Notices.

TERMS OF THE FRENCH INDEMNITY.

Order in Paris.

LONDON, March 2.

The Pall Mall Gazette expresses the belief that the High commission now in session at Washington, avoiding all difficulties as to the distribution of the Alabama claims, will agree to pay a round sum of money, leaving the division of the same to the United States Government.

VERSAILLES, March 2.

Favre to-day notified Bismarck of the vote of the National Assembly ratifying the preliminaries of peace. Bismarck at once replied that he was ready to exchange the formal ratifications, and that the Emperor had already signed the treaty.

The French indemnity is payable in three installments, viz.: One milliard thalers in 1871, two milliards in 1872, and two milliards in 1873. Interest is only payable on the last instalment, from which the proportion of the debt appertaining to Alsace and Lorraine, estimated at one and a half milliards of thalers, and the cost of railways in Eastern France is to be deducted.

PARIS March 1, Wednesday Night.

The Germans occupy all the quarters assigned to them, and perfect tranquility prevails.

STOCKHOLM, March 2.

The health of the King of Sweden is improving.

LONDON, March 2.

The resignation of Childers, of the office of First Lord of Admiralty, is reported. The report is accompanied by the statement that Earl Kimberly succeeds Childers, and that the Right Honorable Chichester Fortesque assumes the duties of Minister of Colonies, made vacant by the transfer of Kimberly.

The Bonapartes

The Chances for their Restoration very Slender.

NEW YORK, March 3.

The Herald this morning apprehends great danger to France in the reconstruction of her Government, evidently believing that her troubles are not yet ended,—"The unanimous vote by which the National Assembly has declared the fall of the Empire and its responsibilities for these unparalleled disasters, and the bewildering humiliation of France, would seem to settle the question for the Prisoner at Wilhelmshohe, and his regency and his Prince Imperial.—It may be said however, that with the return to France of these 400,000 French soldiers of the Empire, now held as prisoners of war in Germany, another Napoleonic coup d'tat is not impossible, but we think the vote of the Assembly indicates so clearly the overwhelming sentiment of the people that there is hardly the shadow of a chance for the Bonapartes in the chapter of accidents, fickle and inconstant as are the French nation.

The Belgium Army on a Peace Footing.

BRUSSELS, March 3.

The Belgians are being placed on a peace footing, and the militia sent home.

The peace plenipotentiaries will hold their sittings at the Hotel de Ville in Brussels.

National Guards Called Home.

BORDEAUX, March 3.

The government has ordered the immediate return of the moblized National Guards to their homes.

Germans Evacuation of Paris.

LONDON, March 3.

The Germans evacuated Paris to day, and Prince Frederick Charles retires immediately behind the Seine. The Emperor and the Crown Prince will leave in a few days for Ferrieres, or some other points near Paris on the right bank of the Seine.

The Indignant Parisians.

The Parisian populace wrecked their vengeance on several men and women who were seen communicating with the German soldiers.

PORTUGAL.

The Cabinet.

LISBON March. 3.

The new cabinet has been completed.

ENGLAND.

England to Mediate between Egypt and Spain.

LONDON, March. 3.

The proffer of England's mediation has been accepted by both parties in dispute, between Egypt and Spain.

ITALY.

The Pope and the Vatican.

ROME, March 3.

The report that the Pope is to leave the Vatican is not true, if personal violence is not imminent. The question is discussed with the Pope by Cardinal Antonelli at the instigation of the Jesuits, but the Pope has decided to remain and cheerfully, because if he leaves the Vatican, the Italian government will confiscate it. The Pope is suffering and is in weak health, and fears if he departs the people would say that papacy was discomfitted.

NEW YORK.

A POLITICAL HOTEL.

Haytien Military Preparations.

March 3.

Tweed is to make the Metropolitan Hotel, which he has leased from May 1 a great headquarters of Tammany politicians.

Hayti advices say fifty thousand Sneider guns and other small arms have been bought in England and in Belgium. A number of steel guns of heavy calibre and on the Prussian system have also been bought for fort and coast defences and military tactics. The meaning of these preparations is apparent. Hayti thinks the annexation of San Domingo will only be the precursor of the annexation of the whole island.

FROM WASHINGTON.

The New Deal for Committee Appointments.

EXCITEMEMT OVER THE SUBJECT.

March 3.

There was a breeze about the Capitol yesterday, concerning matters in the next Congress rather than in this. Numerous new yet well known faces appeared on the scene, and the atmosphere was thick with speculation and rumors touching upon the formation of the committee of the next House, and particularly the committee on ways and means. The interest centres in this committee and its prospective chairman, most decidedly.

Gossip goes to the effect that it was weeks ago decided by Speaker Blaine that Gen. Garfield should be chairman of the committee. To day it is said that this arrangement has been all kicked over, and that Mr. Blaine has been frightened out of his determination by the protectionists, who charge that Garfield's selection is in the interest of revenue reform.

Last night it was reported that Mr. Dawes could not have the chairmanship if he would take it, and that the southern members have demanded that Messrs. Washburne and Dawes be taken off, and the more easy and pliable men be put in their places, so the south can get its share of the people's money.

FINANCIAL MEASURES.

Southern Pacific Railroad.

WASHINGTON, March 2.

The Conference Committee on the Army bill have agreed to the Senate amendment directing the Secretary of the Treasury to pay to the Pacific Railroad companies all but fifty per cent. for transportation was unanimously agreed to. They struck out the Senate amendment to pay loyal Southern claimants for quarter master and commissary stores, and agreed to refer the matter to a commission.

The Senate passed the House bill authorising the Secretary of the Treasury to reissue national bank circulation, in the same manner as mutilated legal tender notes are issued.

The general impression is that all the Appropriation bills will pass before to-morrow at noon. If so the new session will not last more than a week, as both Republicans and Democrats favor a speedy adjournment.

The Southern Pacific Railroad bill passed by 134 to 54.

GENERAL ASSEMBLY.

January Session at Providence.

FRIDAY, March 2,

Senate.

The Senate met at eleven o'clock this morning, the Governor in the chair.

The act allowing respondents in criminal cases to testify, with the amendment excepting parties accused of murder, came up.

Mr. Hart, of Providence, suggested that, as the Senate was very thin, the further consideration of the bill be postponed till next Tuesday.

Mr. Anthony said that he was about to ask some Senator who voted for the amendment yesterday, to make a motion to reconsider the vote on that amendment.

A question arose as to whether a motion to reconsider might not go over to next Tuesday, though by rule, a motion to reconsider a vote must be made within two days after the vote had passed,

Mr. Jillson, of Woonsocket, said he hoped there would be no doubt about the matter. This was an important bill, and questions might afterwards be raised on the action of the Senate.

Mr. Powel, from the committee on corporations, reported back the petition of James S. Streeter and others, for an act to incorporate the Mechanics Machine Company, which was continued to the May session with order of notice.

Also, the petition of J. J. Comstock and others, for an act to incorporate the Manila Manufacturing Company, of which the same disposition was made.

Also, an act to incorporate the Rhode Island Abel Loom Company. Continued to the May session.

The following business from the House was disposed of:

A resolution approving the action of the National House of Representatives in repealing duties on coal was read and passed in concurrance, on motion of Mr. Corliss.

Mr. Powel, from the committee on corporations, reported back the petition of Cyrus Harris and others for an act to incorporate the Greene manufacturing Company.

Also the petition of the New England Automatic Gas Company, both of which petitions were continued to the May session with order of notice.

A resolution from the House, to allow the City Council of the city of Newport further time and authority to lay out and establish a harbor line, was read and passed in concurrence.

Adjourned to 11 a m, Monday.

House.

The House met as per adjournment, Mr. Speaker Barstow in the chair.

Mr. Gorman, of North Providence, called up the act recommending and providing for a Convention of the people of the State, to form a Constitution for the State, the question being on the adoption of the substitute offered by Mr. Sheffield, submitted certain amendments to the people for ratification.

Mr. Lewis of Exeter, offered an amendment striking out the word "male" in the substitute, and advocated his amendment, as according to the spirit of the age.

Mr. Clark, of Providence, thought this amendment proper and should vote for it.

Mr. Sheffield, of Newport, was hardly prepared to vote for the amendment.

Mr. Miner, of Cranston, advocated the amendment. He saw no reason why the people of the State should not have a chance to say whether or not they desired women to vote, nor did he see any reason why women should not be allowed to vote.

Mr. Sheffield stated that if it were proposed to submit the question of female suffrage to the people as a separate proposition, he would vote for its submission, but he would not vote to embarrass the submission of the question of granting the privilege of voting to naturalized citizens by the subject of woman suffrage.

Mr. Ashley, of Providence, also advocated the submission of the question to the people, and argued at some length in favor of woman suffrage.

The amendment to strike out the word "male" was withdrawn to allow Mr. Ashley, of Providence, to offer as an amendment to the substitute, an additional article, abolishing the distinction between men and women in the right to vote, but without action the matter was postponed till Monday.

Some facts About the Dome of our National Capital.

The dome of the Capitol at Washington is the most ambitious structure in America. It is one hundred and eight feet higher than that of Bunker Hill, and twenty three feet higher than Trinity Church tower of New York. It is the only considerable dome of iron, weighing 8,000,000 pounds. How much is that? More than four thousand tons, or about the weight of seventy thousand full grown people; or about equal to a thousand laden coal cars, which, holding four tons apiece, would reach two miles and a half. Directly over your head is a figure in bronze, "America," weighing 14,985 pounds. The pressure of the iron dome upon its piers and pillars is 13,477 pounds to the square foot. St. Peters presses nearly 20,000 pounds more to the square foot, and St. Genevieve, at Paris, 66,000 pounds more. It would require to crush the supports of our dome, a pressure of 755,280 pounds to the square foot. The cost was about $1,100,000. The new wings cost $6,500,000. The architect has a plan for rebuilding the old central part of the Capitol and enlarging the Park, which will cost about $3,200,000.

Marriage Laws.

The laws of England prohibit the marriage of his dead wife's sister by a widower; why, it would puzzle a Philadelphia lawyer to ascertain. The laws divine and human that prohibit the intermarriage of blood relations within certain limits of consanguinity have the unalterable penalties of nature's violated law as a foundation and support, but the extra fastidiousness of English law that prohibits the union of a man with the sister of his deceased wife is a sentiment for the indulgence of which it is difficult to find a proper reason. But the House of Lords the other night, voted an address to the Queen, praying for a veto on the action of the Parliament of Australia legalizing such a marriage. Perhaps this action is taken to preserve the "British constitution," that myth the violation of which is held *in terrorem* over the heads of all who would reform hoary abuses.

General Wm. S. Rosecrans has written a letter favoring the building by government of railways North and South. He says they are necessary to complete national harmony.

Dry Feet are necessary to good health in our climate of rain, snow and thaw. The best insurance against snow and dampness is a pair of the Cable Screw Wire Boots or Shoes. Easy, pliable, durable, they may be had of any good dealer.

The Weed Sewing Machine has an established reputation. Call and see specimens of its work at Messrs. Hibbard & Hawkins, No. 199 Westminster street, Providence.

Burning and Shaking.

By a ridiculous misapplication of language, invalids are sometimes said to "enjoy very poor health," but it is not on record that any human being was ever spoken of as enjoying chills and fever. And yet there are thousands, at this moment, in one or the other of the two stages of the disorder, who might just as well have avoided it as not. If there is anything demonstrable in therapeutics, it is that Hostetter's Stomach Bitters is an antidote to intermittent fevers. No instance can be cited in which it has been taken, either as a safeguard against this class of diseases or as a remedy for them, and failed to produce the desired effect. The season when malarious fevers are rife, has commenced, and no inhabitant of any district subject to their visitations should be without this great preventive and remedy. Indeed, it is a most potent protection against all the ailments which prevail in the spring months. From marsh and pool, and from all moist soils are now rising the mephitic elements which give birth to fever, indigestion, biliousness, colics, and a whole host of epidemic and other maladies. Aid the system to resist them. Energize and regulate all the animal functions with this reinforcing agent. This precaution is as necessary in cities as in new settlements, for malarious fevers are now almost as common in the great centres of population as on the borders of the southern bayous and marshes and the rich agricultural regions of the west. The preventive and remedy is accessible to all. Who will be nowise enough to brave recklessly the danger it would avert?

Thompson's Pomade Optime, as a dressing for the Hair is all that is required: purely vegetable and highly perfumed, it softens, improves and beautifies the Hair, strengthens the roots, and gives it a rich, glossy appearance. For sale by all druggists. Price 25 and 50 cents, per bottle.

Neuralgia and Headache can be cured by taking a dose of HARTONE'S LOTION and rubbing the part affected. Hundreds of bad cases have been cured by thus applying this valuable medicine, and none will be without it who have used it once. For sale by Druggists generally. mt

An Old Custom, but a Sensible One!

In former years the heads of the household would call up and administer to every member some favorite medicine and tonic, to prevent the diseases that follow the change from the cold winter to the gentle spring. That custom ought to have been handed down from generation to generation, and we now advise its continuance, by the use, as the spring opens, of Roback's celebrated remedies. His Pills, Purifier and Bitters will prepare the system for the change.

Undertakers grow rich and grave yards reek with the mouldering bones of thousands who prematurely fall as victims to those relentless destroyers, Catarrh, Bronchitis and Consumption. The two latter diseases are but the children of the former, which is easily and surely cured by using Dr. Sage's Catarrh Remedy, while for the cure of the two latter diseases nothing equals Dr. Pierce's Alt. THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & Co's TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

HARRISON'S LOTION, a preparation composed entirely of vegetable oils, is the best remedy for curing frost-bites and chilblains. Persons who have been troubled with chilblains for years, have been cured with this Lotion after all else had failed, and we have heard of no failure in any case of the many hundreds who have used it, but they all say if they had only known of it before, it would have saved much money and pain.—*Warren Gazette.*

DR. SMITH,

No. 139 THAMES STREET.

WOULD invite attention to the "Combination Suction Plates," said by competent Dentists to be the greatest improvement in Mechanical Dentistry in thirty years. Insuring perfect security against rocking, moving or falling. Preventing particles of food from working under, and the amount of suction increased at least ten times over any plate in use. Equally applicable to the most difficult mouths or to partial sets.

He is also using a new base for Artificial Teeth, which promises to be incomparably superior to rubber. Combining strength, beauty and cleanliness with perfect freedom from taste or smell. nov21

AUCTION SALES.

FARM AT AUCTION.

THE HOMESTEAD of the late Pardon Almy, situated in Little Compton R. I., will be sold at Public Auction, on the premises, on WEDNESDAY, March 8th, 1871, (or if stormy the first fair day,) at 11 o'clock, A. M. The Farm contains about 160 acres with a fair proportion of Meadow and Pasture, and also a portion of a valuable Cedar Swamp. The grounds are well watered, well fenced, and under a good state of cultivation. On the farm is a cottage house, barn, crib, carriage house, and wood house. The situation commands one of the finest prospects in this part of the country, including a view of Mount Hope on the North, the Islands in Buzzard's Bay on the Southeast, the Atlantic Ocean on the South, and Narragansett Bay and the whole length of the island of Rhode Island on the West.

At the same time and place will be sold the stock and farming utensils, and a small lot of household goods. Also a wood lot in Little Compton, and one undivided half of a wood lot in Tiverton. For further particulars apply to

LEGAL NOTICES.

NOTICE.

WHEREAS, default has been made in the payment of the interest on certain bonds issued by the Newport and Wickford Railroad and Steamboat Company, under a mortgage executed by said Company on 1st May, 1870, to Henry Ledyard, Edward King and John T. Bush, trustees, to secure the payment of said bonds, which mortgage is recorded in the offices of the clerks of the city of Newport and town of North Kingstown, in the State of Rhode Island, and by the terms of said mortgage all said bonds having become due and payable; and whereas, it is stipulated thereby that the said trustees *shall*, on the written request of a majority of the holders of said bonds, cause the franchises and all the corporate property of said corporation described in said mortgage, to be sold at public auction, at Newport, in the State of Rhode Island, after thirty days' notice of the time, place and terms of sale; and whereas, said trustees have been duly requested, in writing, by a majority of said bondholders, to sell the property described in said mortgage according to the conditions contained therein. Now, therefore, the undersigned trustees, as aforesaid, hereby give notice that they will sell all the franchises and corporate property of said Newport and Wickford Railroad and Steamboat Company, as described in said mortgage, at Public Auction, at the City Hall of the City of Newport, in the State of Rhode Island, between the hours of eleven A. M. and one P. M., on TUESDAY, March 7th, 1871. The sale to be to the highest bidder for cash.

Newport, 30th January, 1871.
(Signed.) HENRY LEDYARD, EDWARD KING, JOHN T. BUSH, } Trustees.
fe4-st

At a Special Court of Probate of the City of Newport, holden Tuesday, Feb. 21st, 1871.

UPON the petition in writing, to this Court, of HENRY S. FEARING, GEORGE R. FEARING and FREDERICK SHELDON, Executors of the last Will and Testament of DANIEL B. FEARING, late of the City, County and State of New York, deceased; by Wm. P. Sheffield, Attorney, presenting therewith an exemplified copy of the said last Will and Testament of him, said Daniel B. Fearing and of the Probate thereof, as the same appears of record in the office of the Surrogate's Court, in and City of New York under the seal of said Court, and representing to this Court, that there is real estate named in the said Will, which passes thereunder, situate in the City and County of Newport in the State of Rhode Island, and praying that the said Will and Probate may be filed and recorded in the registry of the Court of Probate of Newport, according to law, and that letters testamentary thereon be issued to them as Executors thereof in Rhode Island.

The same is read and received, and the Court assign Thursday the 9th day of March next, at 3 o'clock, P. M., at the Probate Office in the City Hall, in Newport, as the time and the place for taking the same into consideration, and it is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News, to the end that any person may appear and show cause, if any, against the filing and recording the same.

BENJAMIN B. HOWLAND,
febe1 Probate Clerk.

NO MORE KEROSENE

LAMP EXPLOSIONS!

Perfect Safety!

THE

EXTINGUISHING GAS HINGE BURNER,

WITH THE

CHAMPION CHIMNEY,

The Best Burner and Chimney ever put upon the market.

This Burner having an EXTINGUISHER attached, by the touching of a small lever in the side of the Burner the light is instantly extinguished, thus doing away with the old method of blowing down the chimney and endangering the lives of your family and friends by an explosion—as nine-tenths of all the Kerosene accidents in the United States have been caused by blowing down the chimney. It is also a SELF-EXTINGUISHER, as there is no possible way in which this Lamp can fall that it does not put itself out—so that there can be no fire, even if the lamp should be broken and the oil spilled.

It is supplied with a GAS TUBE, to allow the vapor and gas that may be formed in the lamp to escape, thus rendering EVERY LAMP NON-EXPLOSIVE, in all hands and under all circumstances.

The Chimney, of itself, is worth all we ask for the whole, as it is warranted not to break while in use upon the Lamp. Neither hot or cold air affects it.

WIT AND HUMOR.

A quaint old gentleman, of an active, stirring disposition, had a man at work in his garden who was quite the reverse. 'Jones,' said he, 'did you ever see a snail?' 'Certainly,' said Jones. 'Then,' said the old boy, 'you must have met him, for you never could overtake him.'

A drunken fellow, sitting on the steps of park street church, the cold wind blowing chillingly round the corner, thus soliloquised, 'If heaven (hic) tempers the wind to the (hic) shorn lamb, I wish the lamb (hic) was on the corner.'

A fellow coming out of a tavern one frosty morning rather overloaded, fell on the door step. Trying to regain his footing he remarked: 'If it be true that the wicked stand on slippery ground, I must belong to the other class, for it's more than I can do.

A Maine newspaper, commenting on the fact that the Portland water works are exhausted, says it knew that it would come sooner or later, for they would have the Maine liquor law.

An unmarried friend declared the other day, with an expression of countenance most lugubrious, 'I have never cared a farthing about getting married, until I attended an old bachelor's funeral.'

IN NEW YORK, OCT. 10, 1867,
AND HIGHEST PREMIUM FOR
Best Manufacturing Machine
—AT—
Paris Exposition, July, 1867.

NO. 1 FAMILY MACHINE.

THIS MACHINE is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

It has a straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

SPECIAL ATTENTION IS CALLED TO OUR NEW IMPROVED

Nos. 2 & 3—Manufacturing Machines.

They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of

1,200 Stitches per Minute.

Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light and are comparatively noiseless.
The Tailoring or Leather Work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.
SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.
Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.
BUT ALL QUACKS ARE NOT IGNORANT.
Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.
DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.
Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.
His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at
No. 21 Endicott Street, Boston.

WATERS'S

New Scale Pianos,

With Iron Frame, Overstrung Bass and Agraffe Bridge,

MELODEONS AND CABINET ORGANS,

The best Manufactured; Warranted for 6 years.

Fifty New and Second-hand Pianos, Melodeons and Organs of six first-class makers, at *low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand Instruments at great bargains. Illustrated Catalogues mailed.—Warerooms, 481 Broadway, New York.
HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.*

INSURANCE.

Look Well to Your Insurance!

The possession of a Policy does not always protect a property holder against loss by fire. The subscriber is prepared to issue Policies in Companies that for more than

FIFTY YEARS

have been known to the public as honorable and reliable. One of his Companies is the oldest in the United States and has paid $31,000,000 in losses.—Another has the largest capital, and has paid over $25,000,000. These two, together, have more cash assets with which to pay losses than any ten average companies. Their rates are as low as safety, and honorable dealing will allow, but they do not pretend to compete with "Wild Cat" Corporations.

FIRST MORTGAGE
7 Per Cent. Gold Bonds,

On a Completed Road,
FREE OF U. S. TAX,
AT 90 AND ACCRUED INTEREST IN CURRENCY.

Burlington, Cedar Rapids and Minnesota Railway.

The completion of this Road has given to these Bonds an established character equal to any mortgage issue dealt in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment, with Governments or any other security.

These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota—shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 90 miles.

The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.

A contract has been secured with the Chicago, Burlington and Quincey Railroad Company obligating the latter to invest 24 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the Bonds, and establishes a large sinking fund for their redemption.

The convertibility privilege in these bonds enables them to be exchanged for stock, at par, at any time. This secures to the holder, at his option, a share in any excess of earnings over the interest obligation.

An exchange of Government securities for these bonds returns 9 1-2 per cent. interest, instead of 6 per cent., which is all that Governments pay at present price, besides leaving an immediate gain of about 20 per cent. in price for reinvestment.

All marketable securities taken in exchange free of commission and Express charges.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY
SOLICITOR OF PATENTS,
For Inventions, Trade Marks, or Designs,
No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

NEW 7-30 GOLD LOAN!

Safe! Profitable! Permanent!

JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the

First Mortgage Land Grant Gold Bonds
OF THE
Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.
The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.
They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.
The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company.
These Northern Pacific 7-30 Bonds will at all times before maturity, be received AT TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.
In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income one-third and still have a perfectly reliable investment.
HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.
Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks employed to sell this Loan.

THE DIAMOND GLASSES,
MANUFACTURED BY
J. E. SPENCER & Co., N. Y.
Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the

MOST PERFECT,

Natural, Artificial help to the human eye ever known. They are ground under their own supervision from minute Crystal Pebbles, melted together, and derive their name, "Diamond" on account of their hardness and brilliancy.

The Scientific Principle

On which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner,

In frames of the best quality, of all materials used for that purpose.

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age. Is this wonderful HEALING and CLEANSING agent for all diseases or weakness of the RESPIRATORY ORGANS, SORE THROAT, SUDDEN COLD, HOARSENESS, CATARRH, ASTHMA, DRYNESS of the THROAT, or WINDPIPE, DISEASE of the LUNGS and for all irritation of the mucous membrane.
All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.
Dr. WELLS' CARBOLIC TABLETS
act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and Lung difficulty.
The proprietors would say, all first-class medicines have their imitations, and they would
CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

MANHOOD: HOW LOST, HOW RESTORED

JUST PUBLISHED, a new edition of Dr. Culverwell's Celebrated Essay on the RADICAL CURE (without medicine) of SPERMATORRHOEA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance.
☞ Price, in a sealed envelope, only 6 cents.
The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.
☞ This Lecture should be in the hands of every youth and every man in the land.
Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.
Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

PUMPS,

Bells, Keys and Skates.

Friends, to JOHN G. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost,
We also have a Pump that will not freeze,
You raise the handle—water comes with ease,
Bells, have we, and ones that it rings,
And to your door your servant brings;
Keys, we have too, without number—
We'll fit them to a who is a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small.
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.
